

COMP9322- Assignment 3 Meeting One (on Design) Marking Guide (S2, 2018)

| | | | |
|--|------------------|----------|----------|
| Group Name: | Examiner: | | |
| <i>Group Meetings, Overall Quality of the Project Plan</i> | | | |
| | A | B | C |
| <p>Points to be discussed/assessed:</p> <ul style="list-style-type: none"> - Has the group established an effective communication channel (only in English) for group work? (e.g., messaging, code repository) - Has the group established the roles and tasks necessary for the group work? - Has the group identified datasets to use the Data Analytics Service? - Has the group identified the use-case scenario for the Data Analytics Service application? (i.e., what is the service going to offer for the users?) Is it documented well? - Has the group identified the (high-level) system architecture and components necessary for the group work? (not to be detailed, high-level plan) - <p>Notes:</p> <p>Bring one-page document with following information:</p> <ul style="list-style-type: none"> - What is the aim of the service? - What are the datasets? - What is your communication channel? - What is your code repository? - A very brief description of each member's role in the project - Project documentation; correctly described use cases using notations, such as sequence diagrams, mock-ups, or plain natural language; the method is optional. | | | |
| Remarks | | | |
| <p>A: Yes, very good/ready to work. B: Yes, but needs more work C: No. not ready.</p> | | | |

Final Grade: /3
